20 YEARS OF HEPATO-PANCREATIC
SURGERY AND TRANSPLANTOLOGY CLINIC
IN MILITARY MEDICAL ACADEMY SOFIA

HEPATOCELLULAR CARCINOMA MULTIDISCIPLINARY APPROACH

16 - 18 November 2023
Military Medical Academy Sofia

Dear colleagues,

It is my honor and pleasure to invite you to the upcoming International Postgraduate Course, organized by the Clinic of Hepato-Pancreatic Surgery and Transplantology in Military Medical Academy – Sofia. The focus this year will be “Hepatocellular carcinoma – multidisciplinary approach”. The event will host some of the most renowned international experts in the field, from Europe and Asia.

The contemporary treatment of hepatocellular carcinoma employs a wide range of specialists – surgeons, gastroenterologists, oncologists, radiologists, anesthesiologists, pathologists, transplantologists. Military Medical Academy has significant experience in providing complex treatment of the hepatocellular carcinoma and the multidisciplinary team is capable of ensuring extensive care for the patients at every step, including diagnostics, interventional treatments, surgical resection, oncologic therapy and liver transplantation. What better occasion to exchange experience and enrich our knowledge on a topic, encompassing such a broad spectrum of medical fields.

Whit this course we will mark an important anniversary – 20 years from the establishment of the Clinic of Hepato-Pancreatic Surgery and Transplantology in Military Medical Academy. Through the years the clinic asserted itself as the leader in its field in Bulgaria. With great pleasure, I invite all colleagues, alumni, and friends, with whom we have worked alongside during these past 20 years, to join us at this scientific event, so we may celebrate together this anniversary.

Prof. Nikola Vladov MD, PhD
Course Director
